Temperament	Yards	Crush	Paddock
	Quiet: 32 head	Quiet: 30 head Slightly Stirry: 2 head	Temperament not assessed in Paddock
	Cattle were well handled and calm through the yards and crush. The odd heifer stirred up at assessment but resettled well once returned to the mob.		
Handled With	Bikes , Dogs , Horses		
Assessor Comments	An outstanding line of predominantly Rennylea blood Angus heifers PTIC to top class registered fullblood bulls. These heifers were purchased and joined with the selected bulls specifically to appeal to the highest level F1 producers. These heifers have had all the treatments upon induction and were followed up with all required boosters. They were joined from the 20th of April and foetal aging during pretesting identified heifers were pregnant by the end of the end of the 3rd cycle meaning calving should be nice and tight. If you are looking to add to your F1 producing herd these heifers are not to be missed. These heifers are part of a large group being put up by the same vendor. 527 head in total, 1st and 2nd calf Angus Heifers all with the same join split into 1,2 and 3 deck lots.
