	Quiet: 30 head	Quiet: 28 head Slightly Stirry: 2 head	Temperament not assessed in Paddock
	Cattle were well handled and calm through the yards and crush. The odd heifer stirred up at assessment but resettled well once returned to the mob.		
Handled With	Bikes , Dogs , Horses		
Assessor Comments	A very good quality mob of 2nd calvers PTIC to top class registered fullblood Wagyu bulls. These cows were purchased from breeders who were well known for producing high marbling, soft Angus cattle and joined with the selected bulls specifically to appeal to the highest level F1 producers. These cows predominantly feature TeMania,Rennylea and Pathfinder blood. They have had all the treatments upon induction and were followed up with all required boosters. They were joined from the 20th of April til late July and foetal aging during pretesting identified that these cows got pregnant later in the joining. They were predicted to calve late April/early may . If you are looking to add to your F1 producing herd these heifers are not to be missed. They are part of a large group being put up by the same vendor. 527 head in total, 1st and 2nd calf Angus Heifers all with the same join split into 1,2 and 3 deck lots.
