	Heifers were easy to handle through the yards. Brought up from the back yards easily, and just kept leading through the yards, looking for the next open gate. All led up the race well and walked on to the scales with minimal hesitation. A few were displaying some anxious behaviour in the crush, after they had just been preg tested 1/2 an hour earlier.

Assessor Comments	Stylish line of young, healthy, pure Te Mania blood females. These are fresh young heifers showing off a good healthy shine, with some starting to bag up. By high marbling sires, and joined back to high marbling sires - guarantee, these young breeders will be absolute marble making machines! Females that present a number of different marketing opportunities, by calving down and selling on with a calf at foot, rejoin to the Wagyu sires, or use this opportunity to introduce some very well established genetics in to you herd, and get on the front foot with a line of heifers with a very good reputation for feedlot performance, with the steer portion being sought after by top end feedlots.
