Assessor Comments	An outstanding line of 42 x 42 EU accredited, pure Rennylea blood cows and calves. The Parkinson family have been using Rennylea bulls for over 15 years, putting particular focus on IMF with the sires of these calves averaging over +6 in that field (Bull ESBVs attached) and 400-day weight when selecting sires. Cows are 5yr old medium to large frame, that present in very good condition and are a credit to the vendor given how tough a season we have had locally. Excellent opportunity to secure award winning genetics with the Parkinson family steers recently winning Grand Champion pen of 3 in the 'National Carcase Competition' at Beef Week 2024 with one of those steers also winning champion single carcase. Buy with confidence as these units would complement any breeding herd. Please note: Vendor has two other lots of 4 year old cows and calves in this same sale.
