	Stage 1 of the final Coutts family herd dispersal These 4 & 5 year olds cows were the last lot of females to be retained & joined by the Coutts family as they've been slowly transitioning from breeding in to trading. They've been the mothers of market topping future breeders with many young heifers being brought by in-house clients and joined. (You can see some of last years calves in the Weaner & Yearling sale) These are very deep, long barrelled, true to type females with good bone & a real maternal style about them. Cows that calve unassisted, carry a big tank of milk and know how to rear a poddy! All carrying a healthy fat score despite tough seasonal conditions and in perfect order to put out with the Bulls of your choice at delivery. Buyers please Note. Vendor has another lot of the same females in this sale, just being sold in their paddock groups. Vendor also has last years future breeders in the Weaner & Yearling sale (possibly the last lot of breeders to be offered)
