	Cows were easy to handle in the yards, one cow becoming slightly agitated when isolated. Odd cow was slightly stirry in the crush.		
Handled With	Bikes , Dogs , On foot , Vehicles		
Assessor Comments	PTIC 4 YEAR OLD ANGUS X ANGUS COWS. A fantastic opportunity to secure some very well bred PTIC Angus cows from one of the top herds in the New England. These cows are from the Bald Blair commercial herd, a proven maternal marbling herd with over 115 years of breeding selection and being only 4 years old have years of breeding in front of them. All cows had a calf weaned off approximately 5 weeks ago and are now on the improve with a good season in front of them. These females are due to calve Jan/Feb 2025 and are being offered to sell off the Autumn drop herd which was only facilitated to lift calving numbers coming out of the 19/20 drought. An excellent opportunity to secure Bald Blair breeder owned females PTIC to NBBR73, a son of Momentum VLYM518. R73 was selected for carcass merit showing EBV's for EMA of 11.2 and IMF of 4.8 (Top 10% of breed).
