Assessor Comments	Well bred Charolais cows with plenty of frame and in store condition with fresh calves at foot and the milk to rear. Calves are unmarked and had 5-in-1 B12 at assessment with 2 calves needed with alamyacin for slight scourers on assessment. All calves by Palgrove S1451, red factor and homozygous poll bull with plenty of shape and muscle. High content Charolais cows have been used to breed Charolais Herd bulls and only selling as herd reduction with too many cows.
