	1 Head	Small hard lump on under-jaw of 1 cow (see photos for reference)			
	12 Head	Very slight white on udder of 12 cows, extending up towards navel on 2 cows			
Assessor Comments	A nice line of one-mark Angus 1st-calf units. These heifers are bred from a herd which is based on GAR & SAV ANGUS bloodlines, with a focus on selecting sires with high growth rates. Heifers are presenting in fresh condition, with medium to good frame & quiet temperaments. Heifers are starting to clean up in the coat, with some showing signs of rub, & would benefit from a backline to assist in shining up. Heifers are nurturing a very even drop of GAR & SAV Angus sired calves, which are the beneficiaries of targeted, quality carcass & high growth-rate traits, of the breeder when selecting sires, & they should really hit their straps in the coming months with the abundance of milk their mothers are producing. A great opportunity to secure a good line of quality, proven breeders with a lifetime of production ahead them. Vendor has another line of 15 x 15 Angus 1st-calf heifers (sisters to this line), with same-aged, Angus cross calves at foot, also offered this sale.
