Assessor Comments	NGN Valley Pastoral offer 41x41 Speckle Park cross cows and calves. These females are 4 years of age and are 3rd calvers, originally bred in the Tamworth district. Their calf at foot are 1 to 2 months of age by Reiland Angus bulls. These units present a great opportunity to purchase females in the prime of their life. These females are in good condition and are showing excellent maternal traits with plenty of milk with their calves presenting in fresh sappy condition averaging 98kg. Cows that are large frame, average 542kg curfewed and handled well in the assessment process given they have not being handled. These females are only for sale due to needing space for their sheep enterprise. Please note that 22 of these calves are pure black and only one cow showing dominant brahman features. Also note their is one cow from the mob that has not calved yet but is springing and would be available to the purchaser at an agreed rate.
