	Cows were very well behaved in the yards. Drafting off their calves & all leading up from the back yards easily. Walked up the race and in to the crush without hassle. Majority of heifers stood perfectly in the crush and exited at a walk, just a few that were a little more anxious in the crush/hesitating going into the crush, listed above as slightly stirry.

Assessor Comments	Very nice line of top quality proven young females with calves at foot. Boasting 30+ years of pure Rennylea genetics. The Ziller family runs closed herd of 800+ breeders under very strict, stud-like conditions. All retained females are heavily classed on structure, temperament & 'do-ability'. These classed in, top quality young females are doing an excellent job with their bright eyed, fresh young calves, all carrying a good bag of milk, and in ideal, forward condition to be back out with the Bulls, (which they will remain with until delivery). These females ooze maternal quality, with a long, deep roomy structure & a very pretty, feminine face. A very stylish line of breeders that will inject years of genetics in to your herd, with the added bonus of a good number of heifer calves to pick some future breeders from.
