| Assessor Comments      | These Murray Grey Cows are still in the prime of their life for being a profitable opportunity for the purchaser. They are all PTIC 1.5 to 2.5 months to Angus Bulls and would be a money make business for any potential buyers, they are in great condition for calving in the coming months.                                                                                              |               |                                     |
