Assessor Comments	These Angus Cows at 6 to 8 years old, still have plenty to offer in being a profitable opportunity for the purchaser. These cow all have an Angus calf at foot, and would be a money make business for any potential buyers, they are in great condition to feed their calves. These cows have all been Preg tested empty, so buy with confidence that you can join to the bull of your own choice. Please note: 1 cow with an infected pink eye(can see), roughly 8 old pink eye scares in the mob, 3 cows calved the day of assessment, so their calves are all in the heifers count and they were calculated at 33kg each in the average weight of the calves. The 3 cows will be at the average weight of the cows at assessment.
