	The yards had a few awkward corners & laneways, and the cattle didn't flow very well. Despite this, all cows walked through the force & onto the scales well, and were very sensible in the crush. Majority exiting at a walk then standing quietly behind the handlers. 1 cow became quite unsettled during the pushing up process. But once we took the pressure off her and let her have a think, then she walked herself in.

Assessor Comments	Very smart line of 3in1 units! Lovely line of sensible natured young cows with their 3rd calf at foot. Only being offered for sale due to a planned pasture renovation to go forward with a change of operation in the New Year (Getting out of breeding & going into trading) Cracking calves at foot just shy of 190kg, out to 272kg! Cows will be very heavy cows when fat, averaging just shy of 580kg in plain, 2 score working condition, doing an excellent job with their calves, all carrying a big bag of milk with no calves looking like they've ever seen a tough day. A very nice line of PTIC cows, with a weaner to sell just around the corner. Buyers please Note. Vendor has another lot of the sisters in the same sale which were preg tested as not yet detectable.
