Assessor Comments	Lovely line of sensible natured young cows with their 3rd calf at foot. Only being offered for sale due to a planned pasture renovation to go forward with a change of operation in the New Year (Getting out of breeding & going into trading) These young 'Prime of their life' Cows are doing a super job rearing their poddies, averaging 163kg, out to 215kg! Please Note, that while these cows were PTE, they also had the youngest calves at foot, and the scanner only picked up Foetus' that were 6+ weeks. These Cows are still with the Bulls, but showing no active signs of cycling, suggesting a very good chance of these being another lot of 3in1 units to take on. Buyers please Note. Vendor has another lot of the sisters in the same sale which were Preg Tested detectable.
