	Very easy cattle to handle. They have had a lot of exposure to handling and yards with regular rotational grazing patterns and this also makes the cattle quiet. They were through the yards and every cow just took their turn and stood on the scales. Not one cow moved on the scales during the whole process. Exceptionally quiet								
Handled With	Bikes , Vehicles , 4 wheel bike								
Assessor Comments	All the Yala Yala cattle are well handled and a pleasure to work. A wonderful opportunity to secure quiet cattle to establish a herd or to add to any established herd. Highly recommended for those looking for quality cattle. A very stylish Speckle bull in 1/6 and out 18/9. Three in one units with their whole lives ahead of them. You are in production with the most placid cattle possible. Please note - one heifer lost her calf during calving however all young cows are lactating so she is feeding another or other calves. She can not be identified
