Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.
Assessor Comments	These ewes have come up very well considering the season and come with a great reputation. Straight out of the Gum Hill flock, these stud ewes are showing typical traits of Lines Gum Hill sheep. They are plain, with a deep bodied frame, and are known for their fertility. Considering the season these girls have come up extremely well with a bit of help and would be a great addition to any operation. These ewes are both MN2V and Gudair approved vaccinates. At their September shearing, the hoggets generally cut 4.9kg at 6 months at around 19mic. All ewes have electronic ear tags.
