Assessor Comments	A good even line of 2.5 year old ewes. These Glenlea Park blood young future matrons present in a strong order and are just starting to really go forward since shearing a month ago. They show good length of body, with good depth. They are known to grow out to be strong medium to large frame ewes, that are good plain bodied sheep. These ewes have had a lamb this year, having been scanned wet earlier in the year. Only being sold on wool type alone after being re classed. Mill Park are know to buy at the top end of the Glenlea Park ram sale, with a great emphasis on not only frame and meat, but wool. Their flock average is 19mic. Please note that 1 head had light scur.
