Comment on Fat Score 1 Cattle	These steers are fit to load and healthy at assessment. Fit to load guidelines will be followed at delivery. Please note these heifers will remain in the yards on good hay until delivery.		
Vendor Bred	No Vendor has owned stock for 2-6 months		
Stock History	Purchased a line of one brand cows and calves and PTIC cows from Western Qld early winter, these being the weaners off those cows.		
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable		
Bloodlines	Purchased as a line of Angus & Santa x cows & calves and PTIC cows from Western Qld. Calves sired by Angus, Ultrablack & Santa bulls.		
Grazing Conditions	These steers and their mothers have been grazing in very short dry Buffel and natives with some legume. Very dry seasonal conditions has forced the early weaning/sale of these weaners to give relief to the cow Returned to: Buyers please note these heifers will remain in the yards on good hay and weaned until delivery.		
Burr/Seed in Coat	No Burr or Seed of weeds declared noxious observed in the coats at assessment		

HGP Status	The owner declares that the cattle have not been treated with HGP at any period of their lives					
WHP/ESI	Cattle are within a Withholding Period or Export Slaughter Interval for: Cydectin Long Acting injectable as of 29/10/2024 for 108 days					
Health Treatments	Drenched		01/06/2024		Dectomax injectable	
	Vaccinated		01/06/2024		7 in 1 First Dose	
Chemical Residue	56 Days WHP, 108 Days ESI					
Eligibilities	Russian Eligible Saudi Eligible					
J-BAS Score	6					
Vendor Comments	Buyers please consider this line of 44 lightweight soft weaned steers. Weaners off a line of Angus & Santa x cows we purchased in winter from Western Qld. Only being sold early due to the very dry seasonal conditions and need to look after the cow.					
	Quality Grades		Store Condition		Muscle Score	
	Very Good	20%	Store	60%	C	40%
	Good	60%	Bck Store	40%	D	60%
	Fair	10%				
	Plain	10%				
Temperament	Yards		Crush		Paddock	
	Docile: 20 head		Docile: 10 head		Temperament not assessed in Paddock	
	Quiet: 20 head		Quiet: 30 head			
	Slightly Stirry: 4 head		Slightly Stirry: 4 head			
Buyers these weaners were a pleasure to draft , assess and handle. As they were purchased as cows & calves from Western Qld in early winter, they have been trucked, travelled and handled extensively in their short lifetime. I have full confidence they will be quiet and easy to handle moving forward. Only a small handful stirred up in the crush when getting the Cydectin needle which is to be expected for a calf fresh off the cow.						
Handled With	Bikes , Dogs , Horses , On foot , Vehicles					
Assessor Comments	Buyers please consider this line of 44 (1 deck) soft weaned steers. Weighing from 135 - 253 kgs to average 206 kgs at assessment after an overnight dry curfew. These weaners are off a line of quality Western Qld Angus & Santa x cows purchased as units and PTIC cows in early winter this year. Only selling at this age due to the very dry seasonal conditions and to give relief to the cow. These soft steers would make ideal backgrounders for the feedlot market or carry on and finish. They have been pre treated with Cydectin LA injectable to help with movement into tick free areas, they were visually clean of adult tick at assessment. Buyers please refer to my photos and videos as part of my description. They have had extensive handling in their short lifetime and were very good & quiet to handle. Buyers please note the vendor has 44 heifers (1 deck) sisters to these steers in this same sale.					
Assessor	Brock Palmer (Level 2 Accredited) Phone: 0458 800 047					
Delivery Period	01/11/2024 to 06/11/2024 (6 days)					
Delivery Point	On farm "Glenlee" yards, approx 50 km NW of Springsure Lat: -24.0185750163046 "S Lng147.653790908899 " E
