	The slightly stirry heifers in the crush did run away when released but settled once in the mob. In the yards they have a large flight zone & move quickly around the yards, they do settle when given time but slight movements did unsettle them. With good stock handling practices heifers did flow through force & round yard.

Assessor Comments	Store condition heifers ideally suit to a backgrounder to take up to trade feeder weights, could also be taken on to heavy feeder heifers. These heifers could be taken through to a joinable weight & joined to a bull of your choice. Heifers are starting to lose their winter coat. Buyers note these heifers are not preg tested, see joining access details. Vendor has another 49 heavier heifers same sale.
