	1 Head	White patch running forward of the navel

Assessor Comments	Nice line of vendor bred females NSM and presenting in fresh mainly slightly forward condition. Heifers show good frame and are bred from genuine medium to larger framed female herd. They present evenly as a group and carry a clean bill of health. This line of females represents the 2nd group of 2024 drop heifers with a visual tail removed from this group post weighing to present a nice true to type line of heifers. Heifer would make excellent future breeders or carry on to finishing weights if desired. Vendor also offering 149 heifers on another property in same sale. Small amount of heifers exhibit some wart. Please call for further information.
