Assessor Comments	Young, well bred line of 13 month old Rennylea/Ardrossan Angus blood Heifers to take on. Well structured, high growing heifers that are 100kg+ lighter than they would usually be at this age, and offer the successful purchaser some fast and immediate compensatory weight gain on delivery. Heifers that would usually be grown out to feedlot specs, however the tightness of the season has not allowed these heifers to reach anywhere near their potential, and in return, offers the buyer the chance to quickly finish what's been started, with a huge amount of frame to work with. Ideal lot of Heifers to Back ground in the Spring, then finish on a grain ration for a Supermarket program.
