	Cattle have been well weaned and were good to handle throughout assessment. Yards are set up for Bison farming, making them fully lined, with minimal vision, despite this, weaners were sensible to move through the yards, looking for the next gateway. Well mannered to draft in the pound draft. A few were a bit anxious in the crush (fully enclose with rubber) once out in the daylight again, they settled straight back down. Some still had a bit of a flight zone once out in the holding paddock

Assessor Comments	Tops of the Drop of the Beetoomba Bison Heifers. Very well bred line of EU Accredited pure The Glen Angus blood Heifers. Still wearing their Winter Woolies, and only just starting to clean up in the coat. These heifers are renowned for how they grow out & present with all the shape & scope to take on any market, domestic or export, & often being purchased by in-house client for the supermarket trade. These heifers have been properly weaned, received all their animal health treatments & are on the doorstep of losing that coat and really kicking away. 100% Grass fed, antibiotic free. All boxes ticked. Cattle that won't disappoint. Please see photos & video for full contentment.
