These steers only get handle by one individual so they do react when strangers handle them - in saying that they handled well in the yards while being filmed and photographed - they are not push around quiet, but not stirry either, they just move well through the yards. 5 steers moved a little while being weighed and exited faster than the rest and 1 steer moved a lot when being weighed. 2 steers were pushing to the back while being filmed.

Assessor Comments A well grown line of feeder EU Angus steers. These steers have grown out well given the very dry Autumn / winter. They are excellent feeder steers, showing great length and depth of body. They would grow out to excellent bullocks. NOTE - 21hd are VENDOR BRED - 13hd are NOT VENDOR BRED - purchased in as calves on cows. Vendor has another 29 Angus, EU steers - Vendor bred steers in this auction on his other property at Mudgegonga Vic.
