Heifers were good to handle. Most filed through crush no issue, with approx 4 head keen to move off. Drafting heifers was no problem but when let out into bigger yard they were constantly on the move with a few heifers leading this.

Assessor Comments	A very well bred draft of vendor bred EU Poll Hereford heifers ideal to feed on or join. The Morgan cattle are impeccably bred, renowned performance cattle, with no expense spared on genetics sourced from Morganvale, Days & Allendale with focus on above average growth and positive fats. Heifers have been pregnancy tested empty and present in principally forward store to forward condition. They are in ideal order to join for a spring calf or to go into a grain or grass fed program. The Morgan cattle would typically mature into medium to large frame cows. There are three heifers in draft that can not breed and will be removed at delivery if purchased as breeders. A chance to acquire very well bred Poll Hereford heifers that would make terrific matrons or to top up and finish on grain or grass.
