Assessor Comments	A great opportunity to buy a line of good quality 9 - 10 year old cows with quality Angus calves at foot that would make a fantastic trade articles with 16 out of the 21 calves being steer calves. Cows are very quite and their calves are sired by Talooby Angus Bulls. Cows are large to medium frame and present in their working clothes as their putting every thing back into their calves which present in fresh and sappy condition barring one, Calves have been marked. With the grass coming away in leaps and bounds these cow and calf units present as great short term trade options to split in the autumn, cows should average well over 600 kgs when fat and their calves will certainly make the weaner sales come April/May.
