Notable Traits	Traits			
	1 Head	1 caramel coloured baldy steer calf		
	1 Head	1 cow with minor, old blue scarring in both eyes		
Assessor Comments	A nice line of one-mark Angus X 1st-calf units. These heifers are bred from a herd which is based on GAR & SAV ANGUS bloodlines, with a focus on selecting sires with high growth rates. Heifers are presenting in fresh condition, with medium to good frame & quiet temperaments. Heifers are starting to clean up in the coat, with some showing signs of rub, & would benefit from a backline to assist in shining up. Heifers are nurturing a very even drop of GAR & SAV Angus sired calves, which are the beneficiaries of targeted, quality carcass & high growth-rate traits, of the breeder when selecting sires, & they should really hit their straps in the coming months with the abundance of milk their mothers are producing. A great opportunity to secure a good line of quality, proven breeders with a lifetime of production ahead them. Vendor has another line of very good quality, 16 x 16 pure Angus 2nd-calf heifers, with slightly younger calves at foot, also on offer this sale.
