16 Head Angus Angus

These 2nd-calf heifers are well grown, with good depth through the body & carcass shape. Presenting in very fresh/prime condition, & demonstrating great maternal traits, they are milking up well doing a terrific job nourishing the calves at foot.

	1 Head Blue scarring on one eye of 1 cow				
	2 Head Slight white on udder/underline of 2 Cows				
Assessor Comments	A nice line of beautifully quiet tempered, Angus cow & calf units, on their 2nd calf. These young cows are well developed, exhibiting good frame & producing plenty of milk, which is evident in the sappy HAZELDEAN & BOOROOMOOKA Angus sired calves at foot. These young cows are exhibiting very good depth & body, combined with excellent carcass shape, & are presenting in very fresh to prime condition, which would make them suitable for re-joining as the current drop of calves mature. The young calves have hit the ground running & with the abundant milk available on their mothers, should stack considerable weight on quickly. A great opportunity to secure quality young breeders in their prime of production, which have calved unassisted, with ease, with very even, top quality Angus calves at foot & a lifetime of production ahead of them. Vendor also has a line of one-mark, 24 x 24 Black Baldy 1st-calf Heifers & Calves offered in this sale, with slightly older calves at foot.
