Assessor Comments	On offer is a small but quality line of 8 NSM Angus Heifers. These heifers are 2 years old with thumping July/August drop CAF. Presenting in fresh forward condition these heifers are mostly medium to large frame and are doing a fantastic job on their 1st calves. The heifers themselves are Kywarra Blood with their calves also being sired Kywarra Angus bulls. A copy of the bulls pedigrees are attached. Heifers are up to date with all their animal health treatments and have been since birth. The temperament of these heifers is a feature. They were extremely quiet to work with during the assessment. All heifers calved unassisted over a 7-week period. A great opportunity to step into some top-class females with their whole lives ahead of them.
