Assessor Comments	An opportunity to secure a small line of quality heifers & calves. They show good type and are quiet and easy to handle. They have calved over a tight 6 week period and are doing an excellent job on their young calves. The calves are sired by an Ardrossan bull with excellent carcase data and the quality shows in the calves. The heifers show good frame and will mature into large frame cows. A nice line of young cows that have had all the hard work done and will produce quality calves for many years to come.
