Assessor Comments	10x10 second calving Yavenvale blood cows, 3 years old, Yavenvale blood CAF 4-6wks Stand out units that are in forward working condition with sappy young calves at foot, cows are very well handle and quiet. Vendors take pride in the docility of their cattle and cull very hard for anything that isn't of that standard. Extremely good quality cows with years of breeding and proven bloodlines, Cow herd is Yavenvale blood targeting 400-600 day growth with high rump & IMF. Long roomy cows that Avg 539kg at time of the assessment, being a tougher season these cows have the ability given the right feed to be 650-700kg cows fat
