Assessor Comments	A great opportunity to purchase a quality line of well grown Angus heifer's presenting in forward condition weighing 590kg at assessment. These heifers carry Connamara and Te Mania Angus Bloodlines, and are PTIC to Connamara U53 to commence calving February 6th for 9 weeks. These quality heifers, are well structured showing plenty of length and depth, extremely quite, and are a pleasure to handle. Highly recommend these heifer's, and would be an attribute to anyones herd.
