Assessor Comments	A line of genuine store heifers that are medium frame with ample bone that should allow them to mature into a moderate framed female given management. These heifers are well bred but are showing the signs of the season and handle much better than appearances and are ready to respond with feed and sunshine. They have very fresh young calves at side that have been dropped over a very tight calving period. Avery productive young female with her life ahead of her with fresh calves that are enjoying the spoils of their dams milking ability. * Calves carry a management tag yet remain unmarked Note - The vendor has 2 lots of heifers with calves at foot on offer in this catalogue - total 39
