Assessor Comments	Being offered from Mooleulooloo today are these very well grown young wether lambs that have recently freshened from recent rain. Ideal lambs to turn out and forget about for a while, whether it be a wool growing merino operation or for the kill lamb job, these lambs will cover both. The last drop of these lambs were taken through to kill weights on the back of a reasonable year in the pastoral area. They have preformed consistently in both feedlot and grass operations
