Other JD Management	Closed flock. Ewe lambs were a Gudair vaccinated at marking.			
Vendor Comments	The lead draft of our July drop lambs (approx 50% ewe lambs) out of the large framed Mount Hesse bred Centre Plus blood ewes and by high indexed Lambpro Primeline Maternal sires.			
Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.			
Assessor Comments	860 Lambpro Primeline mixed sexed lambs, 38 kgs at assessment to be offered as 2 lots of 430 and delivered evenly. Weaned for 5 weeks & grain imprinted on their mothers. Lambs with size, shape and fat cover (77% 3 fat score), are ideal to fatten or potentially keep the ewe lambs as future breeders. High indexed sires are selected yearly for confirmation, low birth weight, fast growth, positive fat and limited adult weight. Bred from the Mount Hesse Centre Plus blood Merino flock, the ewe lambs are ideal for prime lamb production, and the wether lambs are almost there. Ewes that will produce big lambing percentages together with wool income not commonly found with composites. Buyers can bid with confidence.			
Assessor	Gerard Bohan (Level 2 Accredited) Phone: 0400 005 541
