| Assessor Comments        | This Is the second draft of the weaned lambs offered from Boolarra. All of these lambs have been individually weighed between 20 and 28 kg at assessment. These lambs are the weather portion of the maternal lambing mob born over a short 3 week period, 17/6 till the 8/7. They have been weaned since the 1st of October and are grain trained to a lick feeder receiving a lamb finisher pellet in the paddock. These lambs are positioned perfectly for the discerning lamb finisher to continue growing them out into top shelf trade or export lambs. These lambs are proven performers off crop or in a feedlot with the vendor regularly finishing them into supermarket specifications. Please note the vendor has another 3 lots in today's sale totalling 1768 head. |            |                       |         |
