Assessor Comments	Well bred Lambs, that are out of composite ewes purchased in from “Warrambine” and are sired by Boonerah high indexing rams. There is plenty of shape and bone in these lambs and will make nice trade lambs or could be grown out to heavy export weights. Lambs are fresh, healthy and are full of life. They have been grain trained on their mothers 8 times over the last 3 weeks with a trail of barley. They will remain on their mothers until delivery and are moving forward being well grown for their age. Lambs that will continue to go ahead grow out and improve if given the opportunity. The majority of the lambs are weathers with approximately 5% ewe lambs. Entire run of weather lambs with a tail removed. Please note there was 1 lamb marked at assesment and can be removed at purchasers request.
