Grazing Conditions

Running with ewes on improved pastures comprising ryegrass & clover.

Returned same

Introduced Sheep

Footrot

1-5 sources of sheep have been introduced onto the consignment property in the last 5 years

All consigned sheep are from a flock that is free of Virulent Footrot

Consigned sheep are from a flock that is NOT free of Benign Footrot or Scald

Further Information: Seasonally, conditions in the Western District can be conducive to clover scald. Have not noticed any lameness on this property in the past and no lame lambs will delivered.

Lice	Feet were not inspected at assessment			
Scabby Mouth Vaccination	All consigned sheep are from a flock that is free of Lice			
	100% of this consignment have been treated with a Scabby Mouth Vaccination prior to sale.

Other JD Management	All replacement stock retained on property are Gudair vaccinated			
Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.			
Assessor Comments	Offering a nice quality draft of well bred White Suffolk sired lambs out of composite ewes, bred for performance. Lambs present in principally fresh, healthy, store to forward condition with a 15% tail removed prior to assessment. Vendor selects genetics from Pioneer White Suffolks & Paradoo Prime with focus on above average PEMD, PWWT, WWT & PFAT and these lambs show these attributes with plenty of shape and handle. The Winnidad operation consistently turns off trade and heavy trade lambs and these lambs have the breeding and capacity to hit any market the purchaser desires. An opportunity to acquire healthy, July drop lambs with the breeding to finish to heavy weights (NOTE: vendor offers 1635 WS sired lambs, same description in this sale over 3 lots)			
Assessor	Nick Maddison (Level 1 Accredited)			
Delivery Period	06/11/2024 to 11/11/2024 (6 days)
