Assessor Comments	On offer are very handy line of vendor bred Wether Lambs. These lambs were 100% weighed between 34 & 43kg with a 10% tail drafted out of this weight range prior to assessment. These young wethers are very well bred and present in good store condition and are jumping away since shearing. This line of Roseville Park lambs have been bred from a Pastora/Roseville Park based flock with a heavy Roseville Park influence. 100% of sires used in this lot were Roseville Park. Roseville Park rams were introduced to bolster the wool growing ability as well as the carcase quality of the sheep. These wether lambs presents an excellent opportunity to secure a large line of 1 mark lambs that have been shorn, trained on Barley feeders and are ready to jump away. Wethers are sold of as stores each year at shearing time. A tail of 440 lambs removed prior to assessment that were less than 34kg. EID tagged for purchasers convenience. 30% with horn.
