Assessor Comments	Tops of the drop of the "Mount Oberne" weaned Merino wether lambs with a tail removed. Bred out of large framed plain bodied Blythe blood merino ewes by the top selection of the Blythe Merino auction sires, these lambs are bred to perform. Weaned for a month now, these lambs are still running on fresh green pasture and present in fresh condition. Lambs that carry an excellent history of being proven performers and given the proper opportunity will exit as kill lambs with plenty of weight. Note a small percentage showing wether horn. Good lengthy lambs with plenty of shape bred from a flock with adult wool average of 18.5 - 19 micron.
