Assessor Comments	Excellent quality young wool growing wether lambs. Lambs are very well bred, out of medium to large frame Pastora blood ewes and rams. These lambs have been cliked, and would be the ideal article to run on stubble over the summer. All the work is done. Great opportunity to take advantage of the wool market and grow out these lambs into export weights. Of lambs assessed, 25% had normal wether horn/scur. Please note Vendor's lambs last year cut 4.5kgs at 16.6 micron, these lambs will not disappoint. Lambs are still quite young and have not yet been given the chance to grow.
