Assessor Comments	The Cooper Family of St James are dispersing their Curlew Bloodline flock due to an enterprise re-focus. These wether lambs are quality woolgrowers and produce wool down to 15 micron whilst maintaining good wool weight. Their latest clip was sold in Melbourne in October and were one of the top sellers of the day. These Wether lambs would be ideally suited to continue to feed to take onto feedlot entry or killable weights. With the extensive breeding of Curlew Merino bloodlines, this dispersal gives the purchaser an opportunity to acquire a classed flock in good forward condition and would be an asset to any operation. A tail draft was removed ensuring a quality draft of stock. Please note, vendor has another 4 lots for sale in the National Sheep sale including another lot of Ewe Lambs in the same sale.
