Assessor Comments	The Cooper Family of St James are dispersing their Curlew Bloodline flock due to an enterprise re-focus. These ewe lambs are quality woolgrowers and produce wool down to 15 micron whilst maintaining good wool weight. Their latest clip was sold in Melbourne in October and were one of the top sellers of the day. These ewe lambs would be ideally suited grow out to joinable weights and to then continue with the existing breeding program or join to a ram of your choice. With the extensive breeding of Curlew Merino bloodlines, this dispersal gives the purchaser an opportunity to acquire a classed flock in good forward condition and would be an asset to any operation. A tail draft was removed ensuring a quality draft of stock. Please note, vendor has another lot of Wether Lambs for sale in the same sale including another 4 lots in the National Sheep Sale.
