Improved Pasture Clover/Rye and native pastures

Returned same

Introduced Sheep

Rams Only have been introduced onto the consignment property in the last 5 years

Footrot

All consigned sheep are from a flock that is free of Virulent Footrot

	Consigned sheep are from a flock that is NOT free of Benign Footrot or Scald Further Information: Scald can occur in extreme seasonal conditions. None was observed in this consignment at assessment. As the season dries likely that barley grass could cause inter-digital irritation. Feet were inspected at assessment. Inspected 10 head (3%) Comments: lambs appeared clean and solid in the feet.			
Lice	All consigned sheep are from a flock that is free of Lice

	Very Good	70%	Light	80%
	Good	10%		
Notable Traits	Traits 15 Head slight scur			
Assessor Comments	Sleigh Farming offering annual drop of 385 Wether lambs off Ruffy. Have been on Toland Rams for 30 plus years, selecting top end Rams for positive carcass attributes as well as very positive wool traits. Typical of invested genetics and appropriate management, these wether lambs present as a quality line. Skins are clean and presenting well nourished, with a good start in the clip. Plenty of length and body for age. Noted doing sheep and are regularly sort after by repeat buyers. Weaned on the 12/09. Market Crutched. Their sisters last year went 17.1 mic and 70% yield. mature Clip av 18.6 mic. pls Note the odd lamb showing slight green stain, best efforts will be made to present lambs as clean as possible prior to delivery
