Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.
Assessor Comments	A good line of 385 Southdown Merino X mixed sex store lambs averaging 28.8kgs liveweight at assessment. These lambs have been weaned about 6 weeks and the lambs received a cydectin drench and a mineral supplement as a general husbandry practice at weaning. They were weaned onto fresh pastures on 20th September. They are a nice line of Southdown store lambs that are ideal to turn out and fatten for the trade or export markets. The vendor purchases top Barrama blood ewes annually from one property, and sources rams with high growth rates and EMA data from renowned Athlone Stud.
