Assessor Comments	A line of 680 2nd X lambs. Vendor has selected the terminal rams on growth in muscle and PWW. They have been purchasing rams ranked in the top 10% for terminal carcass production. These lambs mother's are medium-large framed ewes that are by the "Alderside Park' Stud Border Leicester rams. The combination of these bloodlines ensures that these lambs have some of the best genetics to maximise growth rates on chosen feed. After a big curfew, these lambs present as a great store article, shown the appropriate nutrition, lambs will perform nicely. Lambs have been grain trained.
