Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.			
Assessor Comments	Excellent quality store lambs, first pick of 4000, tops in, large tail removed. Fresh lambs weaned and up to date animal health. Bred from large framed centre plus bld Merino ewes with Ashmore high indexing white suffolk rams. Total line offered 2800 split run out the gate into 2 bdouble and 2 single truck lots. 15% of the 2800 were assessed and all weights entered into assessment so each sale line will show a very high % of assessment but can't be split any other way. Lambs all running together as 1 mob so assessed as 1 line of 2800 that have been split into trucking lots for sale. These lambs offer are great opportunity for a serious feeder to buy a significant single line of vendor bred store lambs that have been sold from SA to NSW over previous years.
