Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.			
Assessor Comments	2nd cross suckers that come with the highest recommendation. The Malmo lambs are out of large framed 1st X ewes by very good quality Felix & Hermes Poll Dorset rams meeting a very strict ASBV criteria. Aprox 10% of the lambs are by Poll Dorset rams out of Primeline composite ewes. Lambs all weighed from 33kg to 38kg on 11/11. For the last 10+ years these lambs have been grown out to trade weights & sold to Breakout River Meats. This is a great opportunity to purchase a large line of weaned 2nd cross lambs that have the genetics to do any job. Any lambs with dags have been bunged (approx 60%). Vendor has lighter lambs in the same sale.
