Quality Grades	
Very Good	100%

Assessor Comments	Tops of the 2024 drop ewe lambs that have been bred by the ‘stud mob’ for breeding rams at Green Valley. Green Valley have run a highly productive Merino flock for many years and the sale of the property presents an outstanding opportunity. Prospective purchasers have the ability to secure lines of genuine classed-in breeders with many years of production left. Green Valley have meticulously kept records using an EID system and used the data to cull & select sheep that are highly productive, easy care, fertile & heavy wool cutters. The flocks 5-year averages for ewes joined are as follows, Scanning 158% and Weaning 120%. A lot of time, effort & money has been invested into this flock over the years making these sheep an asset to any Merino operation.
