Preg Scanned?	No, this lot was not pregnancy scanned.
Assessor Comments	Dispersal of the Koorong White Suffolk flock with this group of 26 representing the 3-5 year old ewes depastured to an Otto White Suffolk ram on 3rd October where he will remain until delivery. The Koorong White Suffolk stud was founded in 1996 on Sonning genetics and registered in 1998 as Flock #466. Warburn bloodlines were introduced in to the flock at an early stage and now bloodlines are influenced by Days Whiteface genetics. Koorong have had a very successful sales program selling flock rams to their many private clients for decades, producing excellent industry rams consisting of generally moderate frame with plenty of length, butt profile and soundness of structure. Excellent opportunity to acquire quality breeding ewes with decades of proven genetics pumping through them. Offering two other lots in this sale comprising one lot of unjoined ewes and one lot of unjoined ewe lambs.
