Assessor Comments	Opportunity to purchase Classed in, fertile ewes. June drop 2020. Pure Tolland bld for 26 years. Prospective buyers can rest assured that these Ewes are in perfect condition to take the rams of choice, could not present them any better. These ewes have been bred from rams selected, focusing on positive wool and meat traits. All ewes are proven breeders and would not be present at four years of age if they have not produced each year. This years clip off these Ewe had no fleece root/colour what so ever. Please not wool results above are from 10 months growth. Quality dual purpose sheep that present very well in condition. Note. percentage with overgrown feet refer picture and above assessment.
